安装说明 Assembly Installation

组合配件 Combination Parts

Use screws to make a locking combination of a pair side shelf connection brackets for a seamless connection of base and add-on wire shelving.
使用螺丝让一对边网连接件组合锁紧, 实现主架网片和延伸边网片的无缝连接。

DIY配件系列 DIY PARTS LIST

安装简易, 无需工具。支柱每一英寸有一沟槽, 网片的高度可以通过夹片卡在沟槽上的位置自由调节。可根据您的实际需要灵活改变, 向左右随意延伸(同一宽度)或向前后随意连接(同一长度)。还可加上各种配件组合成功能各异的产品。如配上挂衣杆和布罩可组成衣橱; 配上把手和轮可组成手推车; 还可配上分隔片和侧片来组成书架, 等等。

Easy to Assemble, No Tools Required. Each poles has grooves on 1" increments. Shelf's height can be adjusted freely by the grooves. Plastic Clips snap easily on the pole grooves, allowing shelf collar to slide over for a secure fit. Assembled at will according to your actual requirements, to extend towards left & right on the same width, or to connect back and forth on the same length. For more multi-purpose designs, we suggest you to add different parts to assemble various products. e.g.: Add hanger and non-woven cover to make a wardrobe; Add handle and wheels to make a kitchen cart; Add dividers, side fences to make a book rack, etc.

PACKING WAY

ASSEMBLY INSTRUCTION

1. Check the parts list.

2. Screw the foot leveler or castor wheels to the lower post in a clockwise direction. (The upper post has a black plastic end cap at one end & the lower post has a foot leveler attached).

3. Snap the sleeves into the post groove. Sleeves must be snapped together with the small tapered side facing up.

4. Please make sure that you have the shelf the correct size. Place the shelf on its side and slide the top of the four posts through the bottom of the shelf at its corners until there is a click. After the four posts have been slid through the shelf corner holes, set the shelf upright.

5. Snap the sleeves at your desired shelf height. Slide the shelf down from the top of the posts onto the sleeves.

6. Screw the upper post into the lower post using the connectors which should already be screwed into one of the post holes. Then repeat step 6 for the remaining shelves. (It is recommended that the top shelf be fixed up in the upper post groove).

7. Pushing firmly down on every shelf at corners by rubber mallet to secure the shelf in a place over the sleeves. (Using a rubber mallet can make installation easier-use caution not to damage the unit).

8. Screw the foot levelers in or out at the bottom of the posts to attain proper leveling. Wire-Shelf is now completely assembled.
